GIRL DROWNED AT HAMPTON BEACH

Marjorie C. Milfin of Exeter Wades Beyond Her Depth.—Body Recovered by Electrician Kelley

Marjorie C. Milfin, 20, of Exeter, was drowned while bathing near Great Bluffs Head, Hampton Beach, on Tuesday. In company with an aunt, Miss Milfin was spending a vacation at a cottage on the North Shore road, and left about noon for a swim off shore near her home.

A few minutes later the frantic cries of a woman in distress attracted the attention of John Kelly, an electrician, of Exeter, who happened to be driving by. He divested himself of most of his clothing and rushed in to the aid of the drowning girl. She had sunk before he could reach her, but with the assistance of Charles Boynton, also of Exeter, he secured the body and carried it to shore.

Efforts at resuscitation were at once commenced. Dr. Thompson of Hampton was the first to reach the scene and directed the work. Later Doctor Chesley, arrived from Exeter in company with the girl's mother. The physicians and volunteers from the colony worked over the body for an hour and a half but their task was fruitless.

An attempt was made to secure a pulmotor but it was impossible to locate one. After it became evident that every spark of life was gone the body was turned over to an Exeter undertaker.

Miss Milfin was the daughter of Mr. and Mrs. Charles Milfin of Exeter, her

LOCAL SPEAKERS TO TAKE PART

Dedication of Tuck Monument at Isles of Shoals to Be Notable Affair.

Secretary Otto Hammann of the New Hampshire Historical Society, was here this morning on his way to the Isles of Shoals in connection with the dedication of the monument to Rev. John Tuck, which occurs on Wednesday, July 29, and will be a very notable event.

The steamer Nassau has been chartered to convey the members of the society and others to the Isles of Shoals and it is expected that fully 1500 persons will be in attendance on this occasion.

Local people are to take a very important part in the dedicatory exercises. Ex-Mayor Wallace Hackett will act as toast master, and Rev. Alfred Gooding and Hon. Frank Warren Hackett will deliver addresses. The presentation of the gift will be by Hon. Benjamin F. Kimball of Concord, Gen. Frank S. Streeter of Concord will be one of the speakers.

NEW LAMPS. Lighting Company Putting Them In as Far as Possible.

The Rockingham Light and Power Company is installing some of the new nitrogen lamps on the street lighting system. The old lamps will be removed as fast as the company is able to get the necessary variety of the new lamps from the manufacturers. It is understood that the nitrogen light will be used only for street lighting at present.

The Misses Hertha and Mabel Stanton and Miss Margaret Riney of Nashua are passing their vacation at Hampton Beach.

NEGRO MAID TELLS NEW STORY

Now Asserts that After Shot that Killed Mrs. Bailey Was Fired, Mrs. Carman Hurried Into Kitchen by Back Door

Albino, L. L., July 15. While the grand jury was engaged yesterday in hearing nine witnesses tell what they knew about the mysterious murder of Mrs. Louise Bailey and the actions of Mrs. Florence Conklin Carman just before and just after the crime, detectives were running down a clew believed would lead to the finding of the two strange women whom Mrs. Carman and her sister, Mrs. Ida Powell, said they saw hurrying away directly after Mrs. Bailey fell to the floor of Dr. Edwin Carman's office in Freeport, with a bullet hole through her heart.

These women, the district attorney asserted, may be able to offer corroboration to the testimony given by Edward T. Barden at the inquest and the story told yesterday by Celia Coleman, a negro maid in the Carman home. It was Barden's statement that he saw a woman dressed as Mrs. Carman was dressed, walk away from outside a window in Dr. Carman's office immediately after Barden heard a crash of glass and the report of a revolver that was responsible for the arrest of Mrs. Carman.

The negro maid amplified the testimony she gave at the inquest. Ac-

P. A. C. AND CONSOLIDATION PLAY A SIX INNING TIE

Former Had Plenty of Chances to Win But Fell Down--Pilgrim Hit Hard But Got Good Support.

With the score four to four at the end of the sixth inning, the game between the P. A. C. and the Consolidation Club for, was called on Tuesday evening on account of darkness. It was not the most brilliant game of the season, but interesting from the number of slumps pulled off. The P. A. C. hit Pilgrim hard enough to win two games, but they also made enough to lose two, along with two or three rather honey plays.

Leary was off last evening and he was wild with men on bases, passing six men and in the second he filled the bases and then passed another man, with two strikes on him and two men gone, forcing in a run. His old habit of paying too much attention to the bases and too little to the batter was evident last evening especially in the fifth when he had the game won and with two gone and two strikes on another batter he allowed him to walk with three wild balls. Ralph Brackett was not in his usual form either, his throwing to second being so poor that more stolen bases were registered against him than for any three games this season. In the third he stepped in front of Bailey making a throw to second and Bunker promptly called the runner Howard out. The same runner got around to third in the sixth when G. Woods interfered and he was called out, and this lost the game. Charlie Brackett had a bad night, making three bad throws to first, one of which was very expensive.

There was some good base ball as well as the bad, the Club team giving Pilgrim good support, Brown in the fourth making a wonderful stop of Leary's drive. Kelley and Dowdell contributed two good catches. W. Lynskey held fast in right. In the infield for the P. A. C. Newick who played a fine game was the only man who did not make an error. In the second there was a delay over the decision of Bunker that W. Lynskey did not get Leary's drive to right on the fly but by a pick-up. It was either a pick-up

or Lynskey made a wonderful catch, and got the ball less than an inch from the ground. The decision from the spectators looked right.

The Tragedy in Detail.

FIRST INNING

The P. A. C. were up and Howard led off by hitting in deep left. R. Brackett hit a home run over the fence and Newick singled over second but Trueman flied to Cragen.

Brown hit the first ball through third for a single. He stole second. Dowdell drew a pass and Brown went to third on a home throw by R. Brackett, and he scored when R. Brackett drew out. Dowdell going to second. Estebrook drew a pass and stole second. Cragen singled to right. Renick fanned and Kelley was thrown out by Leary. One run.

SECOND INNING

T. Lynskey singled over second. He stole second. C. Brackett flied to R. Brackett. W. Woods was thrown out by Pilgrim. Leary singled to right and T. Lynskey scored. G. Woods flied to Dowdell. One run.

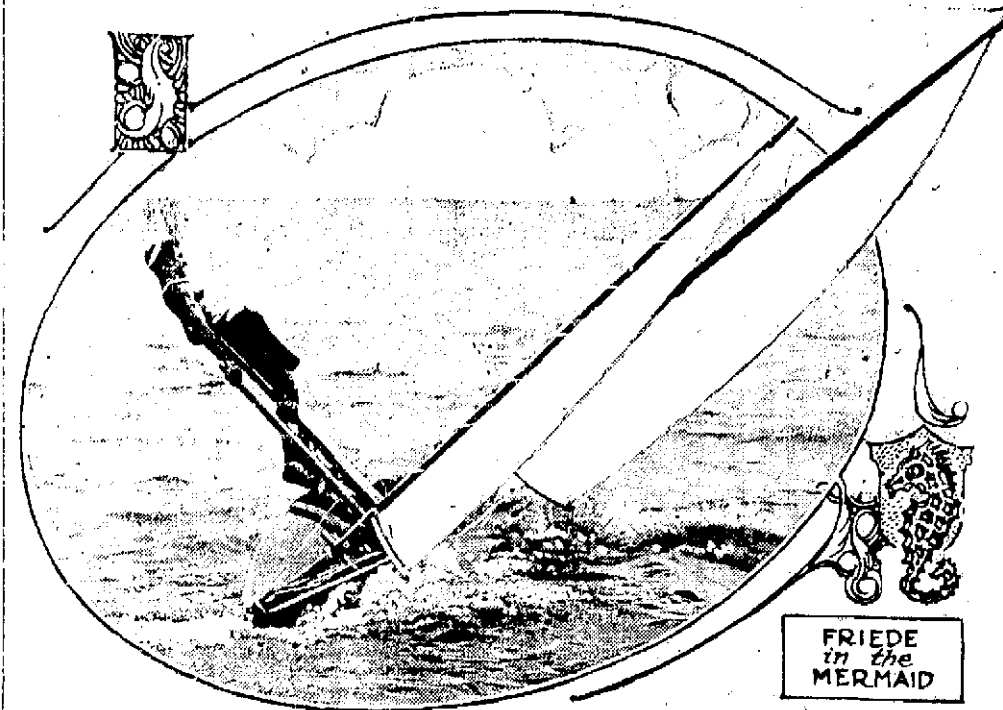

Bailey flied to R. Woods. W. Lynskey singled to left and stole second. Pilgrim hit to C. Brackett, who threw low to first and Lynskey went to third. Brown fanned. Dowdell walked. Kelley flied to the bases and Leary walked. Estebrook forcing Lynskey. Cragen flied to Leary who beat him to first. One run.

THIRD INNING

The P. A. C. should have scored in this inning. Howard led off with a single over second, he went to second and to third on Bailey's over-throw, but Bunker declared him out because R. Brackett stepped out of his box and interfered with Bailey's throw. R. Brackett was thrown out by Brown. Newick singled to right which would have scored Howard, he stole second but Trueman fanned.

Renick grounded to Leary who broke the ball but was unable to field it. He reached second on Trueman's

fumble of a perfect throw by R. Brackett and went to third on a wild pitch. Kelley fanned. Bailey hit to Leary who retired Renick at the plate, and W. Lynskey fanned.

FOURTH INNING

The P. A. C. again should have played the game on Leo T. Lynskey and C. Brackett led off with singles, and scored on Bill Woods' three base drive to left field. Leary hit a savage bouncer to second that Brown made a great stop of, getting the ball well over his head and beating Leary to first. Woods scoring. G. Woods reached that on Renick's fumble and advanced to second on Howard's single over second. R. Brackett raised a high one back of second that Dowdell made after a long run. G. Woods went to Estebrook forcing Lynskey. Cragen flied to second and he was doubled. Dowdell to Brown. Three runs.

Pilgrim reached first on Howard's fumble and was advanced on Brown's single to left. Dowdell fanned and Pilgrim was thrown out going to third. Estebrook drew a pass. Leary to catch Brown off second, threw over Trueman's head and Brown scored when G. Woods held the ball as though he was alone. Cragen was thrown out by Leary. One run.

FIFTH INNING

Newick drove a long fly to left that Kelley was laying out for. Trueman singled through short, and T. Lynskey made his third hit over first. Trueman going to third. C. Brackett was called out on strikes and W. Woods raised a foul for Bailey.

Renick was thrown out by Leary. Kelley reached first on C. Brackett's bad throw to first, and he went to second when the ball went past Newick, but was caught between Newick and third on Bailey's grounder to Howard. Lynskey had two strikes and one ball and Leary apparently devoted his time to Bailey on second and passed W. Lynskey. Pilgrim hit along the third base line and C. Brackett again threw low to first. Bailey scoring from second, tying the score. Brown was thrown out by Howard. One run.

SIXTH INNING

Leary fanned. G. Woods followed suit. Howard lined one to Brown who dropped it and Howard was safe. He stole second and when the throw went over Brown's head he went to third and could have gone home as Dowdell fumbled the ball, but G. Woods ran out and tried to pull him along and Bunker declared Howard out for Woods interfering.

The Club team were out in order. Dowdell on a grounder to Newick. Estebrook fanned and Cragen to Newick. The game was then called on account of darkness and it will be played over again possibly July 24.

SECRET OF FRENCH THRIFT

Purchase of Government Bonds From Home Hoardings.

Simon W. Straus of Chicago, the president of the American society for thrift, has just finished several months of inquiry on the continent into the habits of economy among European peoples. "I should say that a French family can live off of what an American family wastes," said Mr. Straus. "The principal reason of course, is in a habit of mind, in a way of looking upon the relative values of efficient living as compared with inefficient and wasteful living. One may be as extravagant with a dollar as with a million."

"Now the self-denial of the French in food and in other necessities of living often is carried into what I should consider excess, but there is, nevertheless, thoughtful, intelligent thrift in the French household, which contributes to the happiness and well-being of every member. It is that sort of thrift which I should like to see cultivated in American families—a careful adjustment, according to a thought-out plan of the domestic budget, so much for rent, food, clothing, education, the dowry of the daughter, the amusements of every member of the family, the provision for emergencies and old age."

"When a scheme of expenditure is adopted in the French home—and every French home, it is said, is a parliament—and carried out every item of expenditure can be made with a certain contentment or even joy because it is known to be a harmonious relation with the whole. This makes French amusements so thoroughly enjoyed because there is no feeling of extravagance on the part of those amusing themselves. They take their amusements and what might be to the observer indulgences, happily and with out inward sense of discomfort and wrongdoing because these expenses fit into the rational scale of living which has been wrought out earnestly and rationally."

"The French people are wonderful hoarders. They seem to keep their savings hidden at home more than on deposit at banks. A bond issue of the government or one of the great credit institutions is usually taken up without affecting to any great extent the deposits in the great banks. Persons evidently of the lower middle and lower classes will often stay all night in front of the office of issue in line for an early opportunity to buy a \$20 bond. Often several members of a family will unite to buy a low denomination bond. The holders of such securities change their point of view, they look upon life differently, upon social institutions differently, when they have even a small interest in the government or in one of the great industrial or business companies. I think we in America ought to insist on states and cities issuing their bonds for public subscription in small denominations instead of selling them in great blocks to persons who resell them to the public at a profit."

HUERTA IS STILL ON THE JOB

Did Not Sail From Mexico--Expected to Leave With Official Family.

Washington, July 14.—Gen. Huerta Maas all of his official family, who was not among the high official Mexican refugees sailing from Vera Cruz on the liner Espagne, according to early dispatches today from Gen. Huerta.

REPORT ABOUT MME HUERTA

Mexico City Had It That Dictator's Family Would Sail on the Espagne Today.

Mexico City, July 14.—Provisional President Huerta's family, according

to reports prevalent in the capital, is expected to leave for Vera Cruz some time today and will probably embark on the steamship Espagne.

The Espagne, which plies between Vera Cruz, Havana and several Spanish ports, already has a number of prominent Huerta officials aboard.

It is reported here that the delay in the departure of the steamship Espagne is due to the fact that several prominent persons who have not yet reached that city are planning to sail on that ship.

Gen. Medina Barron left here yesterday afternoon for Aguas Calientes, where he will take command of the Federal forces, and will attempt at that point to check the advance southward of the Constitutionalists.

Authoritative information has reached here that the advance guard of Gen. Obregon's Constitutional army has reached Ocotlán, 50 miles east of Guadalajara. The bulk of his command is expected to arrive there within the next 24 hours.

Gen. Blanes, Minister of War, declared that in spite of the advances they have made the Constitutionalists will not reach the capital. A favorable solution of the existing situation is expected soon by many people here.

HUERTA MAY RESIGN TODAY

Dictator is Expected to Turn Administration Over to Foreign Minister Carranza Very Soon.

Washington, July 14.—Huerta's resignation is momentarily expected in Mexico City today. Official diplomatic dispatches from the Federal capital state the dictator probably will quit his post and turn over his administration to his new Foreign Minister, Francisco Carranza, either today or tomorrow.

Evidence that Huerta is preparing an avenue of exit after his abdication was seen in the work of restoring thorough rail communication between Mexico City and Vera Cruz. The chief engineer of the Mexican Railway was sent from the capital personally to supervise the repairing of the gap in the line near the coast. Huerta, it was believed, might use that route of departure. The railway was torn up after the American occupation of Vera Cruz.

With a crisis imminent Administration officials and envoys of the South American republics are unflinching in their efforts to bring about a transition of power in Mexico City without further sacrifice of life.

Carranza Gives Assurance.

Carranza, Constitutional chief, in notifying the United States that he would not sanction any conference with representatives of Huerta, to draft peace terms, declared that unconditional surrender of the authority in Mexico was the only thing he would accept. He said he could give ample assurances for the guarantee of life and property.

While Washington officials have indicated they would take no step to interfere with the revolution, the Constitutionalists have been notified that recognition would not be extended to them if excesses mark their entrance into Mexico City.

One plan suggested for transfer of power to the Constitutionalists is the resignation of Huerta or the Administration that succeeds him, leaving real power over the capital in the hands of local minor authorities. Members of the revolutionary Junta in Washington who made the suggestion, said that if that course were pursued, Carranza then could enter the capital and assume control, avoiding any recognition of Huerta that might be implied by acceptance of executive power directly from him or a Minister succeeding him.

COMMITTEE MEETING

A meeting of the Ward Two republican committee was held on Tuesday evening and arrangements were made for the caucus on Friday evening for the selection of ward officers.

The executive committee was empowered to fill whatever vacancies exist. The ward officers are the only people selected at this time, all other being decided at the Primaries to be held in September.

TO GIVE FAREWELL RECEPTION TO REV. FR. WHITE

Rev. W. J. White, Curate at the Church of the Immaculate Conception in this city, who soon takes charge of his new parish at North Conway, is to be tendered a public reception on Thursday evening.

It will be held in Freeman's hall and the parishioners of the Church of the Immaculate Conception and all his friends are cordially invited to be present.

Rev. Fr. White has been Curate at the Church of the Immaculate Conception for the past five years and in that time he has made a host of friends, not only with the parishioners, but the citizens in general. He is a quiet and retiring gentleman and he has been untiring in his work for the welfare of his people.

The entire plans for his reception on Thursday evening have not been completed yet, but they are in the hands of a bustling committee. A substantial purse as a token of the good will of his friends is being arranged for.

LIPTON NOT GUILTY OF ARMY BRIBERY

London, July 14.—The Attorney General declared today there was no evidence before him to justify the criminal prosecution of Sir Thomas Lipton in connection with the recent army officers and employees of Lipton, Ltd., were convicted on charges of accepting or giving bribes to influence contracts.

Replying to a question by Sir Arthur Balfour in the House of Commons, the Attorney General said proceedings already had been taken in regard to those against whom evidence existed. No such evidence, however, existed against Sir Thomas Lipton.

At the annual meeting of Lipton, Ltd., today, Sir Thomas was attacked by a number of shareholders.

Sir Thomas, in a speech, said nobody could attempt to justify the acts of the men who had been implicated in the eastern scandals, and nobody deplored them more than he did. He declared such steps had been taken as would effectually prevent a recurrence of the scandals.

The meeting concluded with hearty cheers and the expression of wishes for the success of Shamrock IV in its attempt to bring back the American Cup to England.

BIG GUN FOR PANAMA DEFENSE

Washington, July 14.—When its breech-loading device has been perfected at Watervliet arsenal, the great sixteen-inch gun, the biggest piece of ordnance in the world, which has just been shipped from Sandy Hook proving grounds, will be virtually ready for service on the Panama canal fortifications. The carriage for this giant gun is now under construction at the Watervliet, Mass., arsenal. This gun, destined to protect the Pacific entrance to the Panama canal, is 50 feet long, weighs 142 tons and fires a projectile about six feet long and weighing a ton, which is discharged by 665 pounds of powder. The gun has a maximum range of from 22 to 23 miles. The elevation permitted by the carriage will enable the gun to fire a projectile about 21 miles into the Pacific ocean. It has sufficient power theoretically to pierce two feet of the best armor at the muzzle. At 11 miles the gun is calculated to pierce a 12-inch armor plate, or any side armor afloat.

When a shell leaves the gun, it is revolving around its axis at about 4000 revolutions per minute and devel-

ops a pressure of 38,000 pounds to the square inch.

THE WENTWORTH HOME

The Matron of the Home, Miss Jessie MacFarlane, left on Wednesday morning for a month's visit at her home in Carleton Place, Ontario, Canada, carrying with her the best wishes and the most kindly sentiments of personal respect, friendship and esteem of those who have been under her care and of all others who have had an interest in the Home during the past three years. During her absence Miss Emily Swenson will take charge.

On Monday afternoon the Home enjoyed a fine entertainment under the direction of Miss Ida C. Montgomery. The piano performances by Miss Jennie Lynn, the songs by Miss Mary Shaw, accompanied by Miss Montgomery, and the monologues by Miss Ethel Lynn, kept the audience in a constant flow of great enjoyment for an hour. The music and singing were indeed charming and the recitations of Miss Ethel Lynn, "The Farmer's Wife at the Movies" and "Miss Lurella's Telephone" and her songs in costume as a colored Kentucky mother with her babe, and a character sketch in the same costume revived pleasing recollections of her former contributions to the pleasure of the Home entertainments.

ULTIMATUM TO 98 ROADS

Chicago, July 14.—An ultimatum to

the wage dispute between 55,000 engineers and firemen of the 98 railroads west of Chicago and their employers was to be presented today to the managers of the roads. A gigantic strike which will tie up 148,000 miles of road is imminent unless an agreement is reached, according to the union officers.

The ultimatum, it was announced, contained the statement that 90 per cent of the men had voted to strike unless their demands were acceded to. The roads may appeal to the Federal Department of Labor for arbitration.

Virtually all lines west of Chicago, the Illinois Central and lines in Canada west of Port William, except the Canadian Grand Trunk, are affected.

There were three drunks and four marked safe keeping by the police station on Tuesday evening.

A NEW RECORD FOR HIGH FLYING

Leipzig, July 14.—A new world's record for altitude for an aeroplane was established here today by Heinrich Oetrich, a German aviator, who rose in his biplane 7500 meters, or approximately 24,600 feet, nearly 4 1/2 miles. The previous world's record for altitude, 6000 meters, or approximately 19,685 feet had been established only on July 9, at Johannesburg, by Otto Lumsden, a German aviator.

Although it is the middle of July, the summer hotel business in this section with one or two exceptions, is decidedly light.

A Ranting Educator.

Many feel that there are some things to be criticised in the public school system, but there are probably few who would go so far in their criticism as did Dr. J. H. Francis, superintendent of schools at Los Angeles, Cal., in an address delivered a few days ago before the National Education Association at its meeting in St. Louis. The reports say he was vociferously applauded by the delegates, but, if correctly reported, he talked more like a rantier than an educator.

He pronounced the schools namby-pamby places to which children are sent because it is the custom, though admitting that some become good citizens in spite of them; he declared the schools are teaching many things which are of no value to the children in after life, denounced the inefficiency of the average teacher and even went so far as to say that "nine tenths of our immorality is caused by damage done to boys and girls by teachers."

These are startling words to come from a professional educator. That the public schools have their faults and shortcomings few will deny, for they are human institutions, none of which is absolutely perfect. But they are doing excellent work in the main, in spite of their limitations, and there is reason to expect that reform in methods will be introduced as the need therefor becomes clearly recognized, while it would be vain to look for any substantial reform through such ranting as this so-called educator was guilty of.

One of the most common criticisms of the schools, and perhaps the most justified, is that so many fads have been introduced that the children fail to receive sufficient training in the more essential branches. It ought to be understood that a child cannot learn everything at once, and that it would be better to have boys and girls well grounded in the elementary branches of education before scattering their efforts over a wider field. Yet in spite of all the modernism that has been introduced into the schools good work is being done. Most of the high schools fit their pupils for college, and that is worth something, if it be admitted that a college education is worth anything.

Honest criticism of the schools is in order wherever and whenever there is discovered room for improvement, but nothing will be gained by hammering them as practically worthless institutions, holding the teachers up as grossly inefficient, and at the same time calling for increased salaries and pensions for them, as the National Education Association at its meeting did not fail to do.

A Brooklyn parish paper denounces in severe terms some of the scenes enacted by bathers and dancers at the beach resorts near New York. On the grounds of good taste and decency the criticism is undoubtedly justified, but the people of this country are sticklers for "individual liberty," in whose name many unbecoming and dangerous things are said and done. Nevertheless, common decency in public places should be insisted upon, and if what this little paper says is true there is room for reform along the New York beaches.

The moving picture people are making a good market for railroad junk. Some time ago they hired a company to wreck a train in order that a film might be secured, and a few days ago they hired another to let two engines come together on a bridge. This sort of thing disposes of old rolling stock to good advantage and results in thrillers for the public, whose appetite for thrills is growing by leaps and bounds, and withal nobody is hurt.

At the World Church Peace conference to be held in Switzerland next month there will be proposed an international exchange of pastors in the interest of the cause of peace. But, exchange or no exchange, there will probably never come a time when pastors, in case of war, will fail to pray for victory to "our arms."

Lincoln Beachey, who knows something of the flying game, thinks the attempt to cross the Atlantic in a flying boat will result in a fiasco or a tragedy. Yet there are other birdmen who consider the project feasible, and some of whom think the attempt may succeed. But the chances are that Beachey is right.

A brother of Luther Burbank, the plant wizard, says he can develop a potato that would flourish in Alaska, and which would enable Alaska to supply the United States with potatoes as good as any grown in the world. Maine farmers would dread such a development worse than they did the reduction of the tariff.

With the auto and drowning accidents that emblazon the pages of the Monday papers it is to be noticed that there is also an occasional shooting. The reports would indicate that Sunday is anything but a day of rest.

The president is charged with being both weak and tyrannical. At least one set of his accusers must be off the track.

CURRENT OPINION

OLD FASHIONED MOTHERS ARE GETTING SCARCE

Some time ago it was stated that the good old-fashioned mother was getting scarce. With all due respect to the old-fashioned mother, let us go deeper into the subject.

What did the old-fashioned mother know about future training for her sons and daughters? How many men and women are suffering from chronic ailments today, who would not so suffer had the mothers of a generation ago been scientifically informed on proper feeding and care of the family? How many young girls have entered matrimony knowing nothing about the health of their husbands? How many diseased or deformed children have been born and cared for every year?

If children were properly taught in the home much said along these lines could be avoided. Too much false modesty has been a fault of women in the past and through it some have been made to suffer. Never has there been a time when women were better fitted for the rearing of a family than they are today.

With the passing out of the good old-fashioned mother comes the modern scientific woman and for the sake of a future generation we can be thankful.—By M. Spence, Terre Haute, Ind.

ENTIRE TOWN HONORS DEAD

Five Victims of Railroad Tragedy Are Buried at East Rochester.

The entire community of East Rochester and the surrounding towns was shrouded in sadness Tuesday afternoon when the funeral services for the five young victims of the frightful railroad accident of last Saturday were held in the East Rochester church.

In respect to the children who lost their lives in the midst of the pleasures of a picnic at places of business both in East Rochester and Rochester, were closed and the city was in deep mourning.

Never in the history of the city has there been an occasion of such general sorrow, and while the sympathy and condolence of all sister cities and towns are constantly coming to the bereaved parents and friends, the shock is none the less paralyzing and its full force is still fresh in the minds of all.

The Free Baptist church was the house of sorrow, and about the altar were placed the five caskets each banked with floral tributes.

The bodies except that of Miss Ruth Libby lay in state and were viewed by hundreds. Her injuries so disfigured the face that the casket was kept closed. At 4 o'clock the services began with the attendance of the edifice filled to its capacity and over 1000 remaining on the lawn. Pews were crowded down the aisles of men as well as women. The services were conducted by Rev. Myles G. Tupper, who was in charge of the party with the fatal crash occurred. He was assisted by Rev. C. J. Canfield, pastor of the Methodist church, and Rev. John J. Perkins, pastor of the Advent church, and Rev. Frank S. Hartley, pastor of the True Memorial church of Rochester proper.

The schoolmates of the young victims attended in a body and their expressions by tears were far more eloquent than words and showed the deep grief that is felt in the hearts of all. Mr. Tupper was fully five minutes in gaining control of himself and then it could be plainly seen that the pangs of anguish were only subdued by the greatest effort.

Frequently in hisology was he forced to pause in order to regain possession of his voice. Pathetically he referred to the self-sacrifice of Miss Ruth Libby who held the little Tupper boy in her lap when the crash came and by so doing no doubt saved the life of the young son.

At the close of the services the vast throng passed by the caskets, occupying fully 25 minutes before the last sad relative or friend had taken farewell.

Again the pupils of the high school performed their sad duty of escort. The body of Miss Ruth T. Libby was escorted to the cemetery by the pupils of the Peaseville school led by the teacher, Miss Florence Merrill. The five caskets were lowered in Cold Spring cemetery, all within a short distance of each other.

"THE MAN FROM HOME"

The first dramatic offering of the summer season will take place at the Majestic Theatre, Boston, next week, beginning Monday matinee, when the Majestic Players will offer a splendid production of Booth-Tarkington's typical American comedy "The Man from Home." The leading role of Daniel Voorhees Pike will be taken by Carl Stowe who understudied Wm. Hodge during the record run of the play at the Park Theatre. Mr. Stowe afterward played the role himself with the greatest possible success. Other members of the remarkable cast will be Donald Meek, the well known Castle Square favorite, and now a Broadway star, Ross Morrison who needs no introduction to Boston theatregoers, and Florence Shirley and Charles Ormum, two other big local favorites.

RAILROAD NOTES

The color test car of the Boston and Maine with Examiner M. A. Randall, is on a siding in the freight yard where the several local employees are being put through the required test of eyesight.

Electric warning bells have been placed on the gates of the shunt at Green street, Vaughan street and Noble's Island bridge.

Forrest W. Wheeler of Manchester recently assigned to the Portsmouth and Concord passenger train as baggage master, has taken a residence at 423 Broad street.

The car department of the Boston and Maine railroad has placed jumbo mail cars in service between Boston and Lakeport, N. H.

The car department of the New Haven railroad has received from the Keith Car Works, Sagamore, Mass., 200 large box cars equipped with steel frames and metal brake beams.

American Car & Foundry Co., whose plant at Birmingham, a suburb of this city, was nearly wiped out by fire several months ago, has resumed work in the rebuilt blacksmith and wood-working shops. Other parts of the plant are being rapidly repaired and it is expected that the entire plant will soon be in full operation again.

There were 19,150 killed and over 120,000 injured on the railroads of the United States in year ended June 30. In previous year 10,964 were killed.

There will be a meeting at Exeter on July 23 of the commuters on the early local trains running between Somersworth and points enroute to Haverhill, to outline plans for the defeat of the petition to the public service commission to be permitted the removal of the 5.40 and 6.33 local trains from Dover.

A communication from the Public Service Commission which will come up at the hearing to be held at Exeter on July 23 has been received by those interested.

Albert Mignault, 30 years old of Hooksett, a sectionman in the employ of the Boston and Maine road, was struck by the Montreal express leaving Concord on Monday at 5 p. m., near the dry bridge north of the Hooksett station, his body being horribly mangled. Mignault had completed work for the day, and was on his way home when the accident occurred, and was walking on the track.

WHITE ISLAND IN GRAVE DANGER

Sea Making Fast Inroads and Cottages Are Threatened.

Residents in the White Island section of Hampton beach are aroused by the rapidly with which the sea is eating into the mainland, and all the cottagers in that section are beginning to fear that the resort is doomed. The excessive high seas of last week made a severe attack upon the sea line, and by actual measurement forty feet of land was washed away. At this rate in but a short time this picturesque residential section of the beach will be entirely disappeared.

Within the past few years there have been remarkable changes in this part of the beach, and when the sea began to break in upon the island it was believed to be only temporary, but as time goes on, these ravages increase to a tremendous degree, with the result that already a large number of cottages have been removed to places of safety.

Last week the damage was unusually severe, and the sea came within only a few feet of several of the cottages which were believed by their owners to be secure for some time to come. Now one of these is being moved, and the owners of the others are making preparations for moving their property to places of safety further up the beach.

Cottagers in this vicinity are now positive that this work of erosion will continue, and that their only hopes of saving their summer homes will be to move them away from their present locations.

Jerre Rowe, one of the prominent business men of the island is planning to move his buildings, as the sea is now at his very door. His buildings include a cottage and store, a stable and a large garage, and the work of moving these will be quite a task. Not within the memory of the oldest beach resident has the sea made such inroads as in the past few years, and indications are that the biggest part of the island will be washed away, the river no doubt in the end assuming its old course, the bed of which is now plainly visible.

Frank Beckman's cottage which for many years was at the extremity of the island, is now entirely cut off from the mainland, and can be reached only by a boat, while other cottages have been washed away, and several others are at present in imminent danger. Since last season more than 400 yards of the island has disappeared in the sea.

BREEZES FROM THE NEIGHBORING RESORTS

At York.

The tango tea at York on July 18 is the novelty of the season and with the platform built under the trees and tea tables scattered all over the place, on the river bank and on the lawn, and a dainty band to play on drums and violins, the afternoon will pass with great gaiety. Mr. Murray Anderson and Mrs. Wrenn from New York will give exhibition dancing at intervals during the hours from four to seven, comprising the modern ball room dances and also fancy costume dances.

This outdoor affair at the residence of Mrs. Newton Perkins at Sewall's Bridge is for the benefit of a hundred acres of woodland which it is the desire of all York citizens and all tree lovers to save. A pine grove in the heart of the residential section must be sold, and it is a question whether the saw mill gets it or whether the residents can save it by concerted effort. Tickets at the door \$3.00, inclusive of the exhibition dancing, followed by general dancing, and tea served at any time. Following the afternoon performance there will be the formal opening in the evening of the Clubaret barn, where all summer dancing will be in full swing. Here simple supper will be served and the best dancing floor anywhere on the Maine coast invites all dancers to participate. Mr. Anderson and Mrs. Wrenn manage this cabaret, and will many times give exhibitions of fancy dances. General admission 50c, except club nights at \$1.

Hotel Rockaway, York Beach.

Madame Stuart-Ritchings, writer, lecturer and preacher, was a recent guest of the Hotel Rockaway, York Beach, and gave a delightful dramatic entertainment in the hotel parlors to a large number of guests assembled. Madame Stuart-Ritchings is a graduate of the Dramatic Arts School from which she holds a degree of Bachelor of Dramatic Art. She has had a successful stage career, especially in emotional roles; playing with such well known people as Colclough and Fanny Davenport. After retiring from the stage she was ordained a Universalist minister and received an appointment as chaplain-at-large in the Spanish war. Madame Stuart-Ritchings is a member of the Red Cross society and during the war was a nurse at Camp Thomas near Chattanooga. She is a charming speaker and received such a royal welcome that she responded to a request for a return engagement in August.

A novel entertainment was furnished by the proprietor of the Hotel Rockaway, which was hugely enjoyed not only by the guests of the hotel

but by many hundreds who thronged the board walk in front of the hotel piazzas. A classical concert was enjoyed rendered from a Grafonola located on the hotel piazzas. The tremendous volume of tone reached nearly every portion of the beach. The many selections were so highly enjoyed and were so popular that the proprietor of Hotel Rockaway will continue to give each Sunday evening a similar concert for the enjoyment of all.

The Observer

Through the courtesy of Samuel H. Kingsbury the writer was recently shown the pay roll of the Garabaldi Hook and Ladder Company, No. 1, for the six months ending March 31, 1913. At that time the hook and ladder company was composed of thirty members and each man received \$15 per year for his services. The roster of the company was as follows: John Walsh, Jr., Samuel S. Fletcher, George P. Abbott, Edward J. Moulton, William A. Neal, Wilbur P. Neal, John J. Locke, John Donovan, John L. Green, Franklin N. Paul, Charles E. Leach, Charles E. Newman, Otis Green, Oliver H. Locke, John Amazeen, Samuel H. Kingsbury, Howard M. Messer, John S. Rand, John H. Merrill, George W. Green, William Woodman, Thomas Watkins, Jacob Haddock, Daniel MacDonald, George Humphries, John Abbott, William Frasier, Charles A. Neal, Edward P. Moses, George P. Wallace. Of this number twenty-one have passed to the other world. The pay roll also bears the signature of Mayor Frank Jones, Chief Engineer James A. Waterhouse and Clerk John Pender of the fire department.

It is pleasing to note the manner in which our citizens and property owners have responded to the cleanup and paint up campaign in this city that was advocated by the Herald some time ago. While there was no organized movement in this direction, similar to that in other New Hampshire cities, our citizens with just pride in their city have indulged in an era of improvement to their property that has not been seen for years. This is particularly noticeable in the business section of the city where many business blocks have been greatly improved in appearance by a fresh coat of paint. On Islington street many residences have been repainted and it is doubtful if there is a city of our size in New England that presents a neater aspect as far as its buildings are concerned.

Ulster Is Again Seething With Trouble Over Irish Home Rule

Photo by American Press Association.

Ulster troubles, arising out of the home rule matter, threatened to flare into real war so often after the final passage by the English parliament of the act that each "crisis" seemed to be the breaking point of peace in Ireland. This picture shows Captain James Craig, one of the Ulster Unionist volunteer leaders, inspecting his troops near Belfast. Estimates differ as to the number of armed volunteers in Ulster, ranging anywhere from 40,000 to 100,000.

PORTSMOUTH THEATRE PROGRAMME

WEDNESDAY AND THURSDAY.

"The Changeling"—Lubin drama, 2 parts.

Unable to bear the thoughts of his girl in the arms of a faithless man, he resolves to separate them at any cost. So that night he takes the machine on an auto ride. The auto is struck by an express train. Only two persons ever know how the accident happened—Dr. Deimore and the "changeling"—and their lips are sealed in death.

ACT—Del-A-Phone—Mimic.

"The Countess"—Exsanny drama.

She is pursued by Nihilists and he defends her by fighting her enemies hand to hand. This is a highly romantic story, with Francis X. Bushman and Beverly Bayne.

ACT—Parker & Parker—Novelty Musical.

"The Tango in Tuckerville"—Edison comedy.

The opening of the "New York Lady Manicurists" parlor starts something. The New Yorkers are far too good looking to suit the native wives.

"Sophie Gets Stung"—Exsanny comedy.

Sophie has many admirers, who attempt to outwit the others and marry her. Disheartened they leave Sophie pining after them and this is where Sophie gets stung.

NEWCASTLE

The past week has brought many new arrivals to the Island town. New Castle has once more assumed its gala summer garb. There is much bustle and activity at the hotels and boarding houses while the postoffice at midday has again become the common gathering place. All indications point to a festive and prosperous season.

Conspicuous at the bathing hour at the beach were the Pocahontas Camp Fire Girls, composed of the following

attractive young misses: Lucie Kenney, Blanche Pettigrew, Elsie Schurman, Odette Chick, Grace Buckmaster, Ruth Day and Dorothy Harriman, who have been passing the week at Bangalow Lockrest with Miss Effie Wright as guardian and Mrs. J. O. Pettigrew as assistant guardian. They have passed the greater part of the time at the beach where they have swam and splashed in Old Neptune to their hearts' content. Their pretty young faces fairly radiating with the joy of being. They returned to their homes in Portsmouth Tuesday. Here's hoping that you will come again, Pocahontas Camp Fire Girls.

Captain Lindzey's boat Plain is being taxed to its utmost capacity to carry so many passengers.

FOUND STARVING IN FREIGHT CAR

Boy Nearly Dead When Dis-
covered by Track Hand.

While at work about the tracks in
the Concord railroad yard on Tues-
day a section man heard groans in
a box car attached to a through
freight and called the attention of O.
J. Oley, a yard trainman. Oley at
once summoned assistance and the
car was broken open. In it was found
Thomas Bruce, 19, of Mills street,
Groveton. He was nearly unconscious
and barely able to move. He could
not stand, his arms and legs were
stiff. His throat and tongue were so
dry that he was unable to speak for
some time. After being found he was
taken to the police station and Dr.
Cook called. Having been given first
aid treatment, Bruce was able to tell
his story.

It seems that he left his home in
Groveton and for several days was in
the vicinity of St. Johnsbury, North-
field and Newport, Vt. Being unable
to find any employment, he crawled
into the car last Friday and expected
to get out of town that way. He
had, however, gotten into a through
car, which was sealed up shortly af-
ter he had gotten in. At the police
station it was thought that he would
recover.

POLICE COURT.

Edward Miller of Manchester and
Chamcroft was before Judge Torrey
in the district court on Tuesday after-
noon charged with being a tramp. He
pleaded not guilty and conducted his
own case and had all the sea lawyers
frayed that have appeared in the local
hall of justice for many days. Miller
is some barrister but his cross ex-
amination of police and witnesses, failed
to convince the court that he was not
one of the fraternity that took in
freight train excursions and he was
held for the higher court when he will
be heard again under the Marston
tramp law. Bonds were placed at \$100
and failing to get bail he went to jail.
